## We make cash flow.

# Cashkeeper

for banknotes and coins

**Cashing up made easy!** With Cashkeeper, the automatic cashier, the checkout process is simplified and accelerated - increasing customer throughput. With each cash payment, the automated cashier ensures that the acceptance and dispensing of change is very quick, extremely hygienic and safe. Wrong change dispensing is effectively impossible with the Cashkeeper POS system. The Cashkeeper also takes care of cash accounting. A real win, especially for retail cash registers!

- ➔ **Change acceptance and dispensing:** fully automatically, error-free and time-saving
- ➔ **Increased security:** checks coins and banknotes for authenticity, records them and sorts the coins
- ➔ **Teamwork:** a single cash register for everyone
- ➔ **Improved hygiene:** sales staff do not come into contact with cash
- ➔ **Cash register is always correct:** cash balancing at shift change and at the end of the day at the push of a button
- ➔ **Fits everywhere:** Available as a **stand-alone-POS system** or as a **build-in device**

Coin module

Banknote module
